EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or

additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the

payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr.

Bruce H. Troxell, attorney of record, on 02 August 2005. The application has been amended as

follows:

(1) Claim 1, subitem b), line 3, the phrase "socket end is larger that a diameter" has

been changed to read --socket end is larger that a diameter--.

2. The following is an examiner's statement of reasons for allowance:

Wang' '384 is the best art of record.

Claim 3 is the independent claim.

Wang' '384 lacks a second engaging annular slot receiving second engaging ring

member (5). Ring member (5) is properly mounted on body (1), not inserted in a slot, but is

designed to slide along body in a forward direction to release the semicircular engaging member

(2) and is biased to slide in a backwards direction by the spring (4) to lock the drill bit (8).

Applicant has also further defined the locational relationship between the elements as follows:

a) a second engaging annular slot located between the first engaging annular slot and

the insertion rod,

b) the first engaging annular slot located between the second engaging annular slot and

the external annular slot, and

c) the first engaging ring located between the spring and the second engaging ring.

Application/Control Number: 10/691,860

Art Unit: 3722

The prior art of record does not anticipate or obviate the modification to the body to

include a second engaging slot in a locational relationship as stated above to receive ring

member (5) since this would destroy the function of the patent.

Claims 3 and 4 are allowed.

Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany the

issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons

for Allowance."

3. Any inquiry concerning the content of this communication from the examiner should be

directed to Michael W. Talbot, whose telephone number is 571-272-4481. The examiner's

office hours are typically 8:30am until 5:00pm, Monday through Friday. The examiner's

supervisor, Mr. Boyer D. Ashley, may be reached at 571-272-4502

In order to reduce pendency and avoid potential delays, group 3720 is encouraging

FAXing of responses to Office Actions directly into the Group at FAX number 571-273-8300.

This practice may be used for filling papers not requiring a fee. It may also be used for filling

papers, which require a fee, by applicants who authorize charges to a USPTO deposit account.

Please identify Examiner Michael W. Talbot of Art Unit 3722 at the top of your cover sheet.
